### BACKGROUND INFORMATION

The wine was developed to have a taste profile very close to Prosecco and specifically to sparkle in the UK using our carbonation facility, which we know through extensive research, gives an elegant, softer style of fizz that consumers prefer to typical sparkling wines such as Prosecco. It is sealed with a Zork closure, which means it is resealable once opened, so perfect for selling in the on trade by the glass with no wastage.

### TASTING NOTE

Light and fresh with notes of green apple and citrus fruit.
