WELCOME TO KINGSLAND DRINKS UK STOCK

Welcome to Kingsland Drinks' Portfolio for 2024. Our expert wine buying team along with our resident MW, David Gill, refine our offering to ensure that we cover all key countries and price points. You will find a large selection exclusively available to the on trade and independent sector, and any of our brands available more widely will be highlighted as such.

Our team are currently working on an exciting new website, where you will find product sheets are more easily accessible and downloadable, a more interactive producer section, and our wider Kingsland Drinks capabilities are explained in more depth. The new website is due to launch in the first quarter of 2024; we will be in touch when it is live.

The industry has seen a lot of change in the last 12 months, notably a new abv-led duty regime which gives a tax relief to lower abv wines. We have a selection of wines in the portfolio at 10.5-11% abv, allowing you to remain as price competitive as possible in market while ensuring each bottle will deliver on quality and taste.

2023 saw Kingsland Drinks celebrate our 2nd year as an Employee-Owned business and in September the whole team came together for a day to remind us of the power of collaboration and teamwork; we want to have a business working for the benefit of everyone. We continue to develop our Thirsty Earth Sustainability Programme to ensure sustainability remains at the heart of the business; as part of this, we have committed to the Science Based Targets Initiative and Net Zero emissions by 2030.

We worked in collaboration with The Drinks Trust ("TDT") on their 2023 industry survey and provided WSET training for industry colleagues as part of TDT's Develop Campaign. We continue to work alongside the Wine and Spirits Trade Association and together we campaign for a sustainable and vibrant industry.

We have seen our brand team run some excellent campaigns across our portfolio, including Campaneo's "Savvy Sipper" campaign with Miguel Barclay, "Turn Up with Mix-Up" and Andrew Peace "Crafted for Conversation" and to top it off, our partnership with The Hidden Sea in the UK has to date led to the equivalent to 12 million 500ml plastic bottles being removed from our oceans and recycled.

Our LinkedIn channel is the best way to keep abreast of all Kingsland Drinks news, along with updates from your account manager.

If you would like to speak to one of the team, please call 0161 333 4300, or email info@kingsland-drinks.com and we will direct you to your local account manager.

We wish you all the best and a happy, healthy and prosperous 2024.

ARGENTINA DON APARO / FINCA VISTA / STEAKMAKER

Don Aparo rode his bicycle 14km every day to his beloved vineyard in Mendoza. He put the vineyards to bed every night, and was often seen walking with his lantern through the vines on an evening. This story perfectly encapsulates the history, integrity and tradition that the winery is renowned for.

"Finca Vista" translates to "Estate View". The grapes for this wine have been carefully selected from three high quality vineyards in the Mendoza region; Lujan, Maipu and Junin. The vineyards are all over 40 years old and are situated at high altitude, close to the Andes Mountain range. The three vineyards are situated between 700 to 1,100 metres above sea level, from where the view is simply stunning.

FRANCE ALLIANCE LOIRE

The vineyards of **Alliance Loire** follow the Loire river from Nantes on the Atlantic coast to the Touraine region 1,000 kilometres inland. Alliance Loire is the stellar combination of seven cooperative cellars who decided to join forces in 2002 bringing with them their expertise on crafting expressive wines from their individual AOPs which reflect the diverse terroir, climate and grape varieties planted. We've chosen a Muscadet that has been aged on its lees which adds more complexity and rounded structure on the palate than a regular Muscadet. The Rose d'Anjou that we've also chosen is a great example of rose that has some sweetness to it but great acidity so the perception on taste is not overtly sweet but really soft and refreshing.

Tuscany's climate is generally Mediterranean, with the further eastern regions having continental influences from the Apennine mountain range. Italy has a turbulent geological history with a mix of many soil types, including albarese (sandstone) and galestro (chalky-marl). Even within relatively short distances in a particular vineyard the soil types can alter enormously, and good vineyard management is particularly important for consistent wines to be produced. A family business producing wine since 1943, Lopez Morenas is now one of the biggest wine companies in Spain and is located in Extremadura, Land of the Conquistadors, from whence the Discoverers of the Americas came.
